Watson Virtually Demands the Maine Man's Withdrawal.

Own Signature That He Is the Man To Be Recognized as Bryan's Proper Running Mate-General Weaver of Iowa in Alabama to See Fair Play at the Polis-Political Notes

ATLANTA, Gn., July St.-Hon. Thomas Watson of Thompson is out in a strong editorial in his paper stating his grounds for accempting the nomination for vice president from the Populist national conention. He refers to Mr. Sewall as an individual of standing and a free silver Democrat, but adopts the argument elaborated on at St. Louis that the nomination of a Populist for second place was cessary to preserve the autonomy of the Populist organization, especially in the south. The editorial is accepted not only s a letter of acceptance but also an official ultimatum that propositions for with drawal will not be considered by Mr. Wat son or the Populists and that the case now rests with Mr. Sewall. The announce ment is made in a signed editorial. It virtually demands the withdrawal of the Democratic candidate for vice president. Throughout the editorial instructions are made and where it seems to analyze the situation developes the fact that Mr. Watson is making a strong demand for his immediate recognition as Bryan's running

What the Editorial Says. In part he says: 'With such a large number of experienced workers organized and well equipped, striving for the in-dorsement of both Bryan and Sewall, the fate of the party was in the highest degree critical. The "middle of the road" men were the more numerous, but less united They could not agree upon leaders. In the vice presidential nomination they were divided between several different candidates, while the Sewail men were a com-pact body which threatened to become a majority by the mere failure of opposition to concentrate. It was this chaotic condition of things which 1 witnessed with keen anxiety and which caused members of the Georgia delegation to telegraph me to allow my name to be used to restore harmony and save the party. Upon that express condition I consented and the ob-ject was obtained. Sewall was defeated, the Populist factions harmonized, and the Democratic programme checkmated.

"This condition of things was not of my seeking. If now the Democratic managers should refuse to make any concession at all it would show that our efforts to-ward unity have all been thrown away. If they continue to demand that the Pop-ulists shall go out of existence as a party, they will prove to all the world the idea in adopting our platform was not so much to get free silver as it was to bury the Pop-ulist party. A correspondent of the At-lanta Journal attempts to make it appear that there has been a collision between Senator Butler, chairman of the Populis national executive committee and myself. This is all wrong. That correspondent. in company with several other gentlemen, called on me at my residence and we had, what I supposed, a private conversation. Something was said about the plan of campaign, and I was asked if I had heard from Senator Butler. In reply I stated that I had a telegram from him suggesting that I go at once to Alabama, and stating that a letter explaining matters

Better Wait Awhile. "I remarked that it seemed to me we had better wait awhile and see what the situation was going to be. Mr. Bryan would have to respond to our nomination in a few days or the executive committee would meet on Aug. 6 and take some ac-tion concerning his silence. Besides this reason there are others. One of them is or convention meets Ang. 6; it might b well to wait and see whether the party will indorse what was done at St. Louis It is by no means certain that the party will do so. There are mutterings of dis-content all along the line and if Mr. Sewall declines to retire for harmony's sake the rank and file of our party may break away from the leaders and refuse to vote for Mr. Bryan at all. Therefore my own

BIRMINGHAM, July 3t .- General Jame B. Weaver of Iowa, who reached here Wednesday evening, was in conference much of Thursday with the Populist lenders with reference to the state elections to be held Monday. It was agreed that if a fair election is held the Populist-Republican fusion state ticket will win, and it was decided to give the Democratic managers to understand that unless an absolutely fair election is had that the Populists in this state will not support Bryan in No-vember, but will fuse with the Republic-ans and east their ballots for McKinley in ans and east their ballots for McKinley in order to rebuke, as they say, dishonest election methods. General Weaver tele-graphed National Chairman Jones of the Democratic committee to come here at once and use his efforts to secure fair play for the Goodwin ticket in order to hold the Alabama Populists in line for Bryan. Populist lengths confidently arrest that

Senator Jones will come. They assert that while the success of silver is greatly to be desired, houest elections must first be had. In the event that the Populists are satisfied with the result of next Marketine. come is expected to have an important bearing on the attitude of the Populistain

Socialist Congress at London Gets Down

LONDON, July 31 -After wasting three lays in wrangling over questions arising from the inspection of the credentials of the delegates and their right to be admitted the fourth session of the international socialist labor and trade union congress was opened Thursday in St. Martin's town hall. The delegates lost no time in complaining bitterly of the sterility of the proceedings. They claimed they had been sent by 'hungry millions' to attend to business and not to air their own dissensions and so play into the hands

These complaints seemed to have con siderable weight with the assembly, for the session was a comparatively quiet one. The report of the agrarian committee, favoring the socialization of land, was adopted. Matthew Maguire, the leading delegate of the socialist party of the United States, presented a long report of the history of the labor movement in the United States, in which are copious quotations from the resolutions adop by the socialist convention July 4 and also a declaration of the principles of the socialist trade and labor alliance.
